

NASIR

CEO – Heaven on Earth UK.

Following the principle of “give only what you can receive”, Nasir, CEO of Heaven on Earth UK has never believed in competition, being leaders and not followers, he has always been an originator and not a imitator and that is exactly what he considers to be his greatest strength. While he received the Award of Excellence which indeed spoke volumes for itself and whilst having been found to not only be a Game Changer but branded as one of Asia's prominent & inspirational leaders too. During his speech he was found thanking his loved ones, relatives CEOs and the Directors along with the staff. A man who does not believe in impossible and takes up challenges as a part of life is a man who is destined to succeed in life. If one was to ask Nasir, what we could expect from him in the times to come, he'd say, “A new era of Celebrity and Entertainment and business services in Dubai by again backing HH's Sheikh Mohammed bin Rashed Al Maktoum's Vision through our contributions till date. Never has it been this evident and without any competition whatsoever due to being in an elite league of our own and to remain uncompetitive and unbeatable as again till date. Also, to remain and sustain vigorously against all odds as we've always successfully done. Despite the crunch and tests it brought in its stride we did not disappear, as faith and practicality confines one to no boundaries.” Such profound confidence in self and in one's team is not only benefiting but a motivation like no other.

Socially & professionally active, Nasir Ramadhan believes that interacting personally and diligently is an imperative in life to attain visionary goals. One must not be isolated high above in some ivory towers away from reality expecting others to deliver. He aims to serve and entertain the public as per his exemplary track record despite the tests that came in his life's stride. With every truth their comes a false contention by opposition, and by every such opposition, there comes stability and success despite what spuriousness one would be up against for Regardless of all the past baseless oppositions they continue to grow both locally and internationally and wants to see their presence augment to greater heights than it is today. He wishes to continue being the proud strength of Dubai, UAE and remain as the prime paragons of the world, by stating "your vision is your vision" and nobody can deliver that "vision" better than "you" when you know you are veracious and upright then don't take No or rejection as a means to interfere with your vision,

KEY ATTRIBUTES THAT MAKE HIM A LEADER

- Has been the contender for Award of Excellence, Branded Game Changer, and Asia's Inspirational Leader.
